

Great Temporary Weatherstripping

If drafty windows and doors are sending chills down your spine and your utility bill is soaring, we have just what the doctor ordered. Temporary weather stripping! You will really like this stuff if you have ever caulked a window shut only to face the consequences of removing the caulk in the spring. These new products are as easy to remove as they are to apply. No putty knife, scratched window frames or the frustration that accompanies removing mainstream caulking products. DAP Seal 'n' Peel installs with a caulking gun and dries in about two hours. Seal and Strip by Poly Seam Seal is a clear caulk-like ribbon you put in place with your finger. Like Seal 'n' Peel, it is easily removed and leaves no residue. Look for these new products at a home center or hardware store near you.

NOTE: You can find a dealer of this neat new material by contacting DAP at:

DAP Inc.
PO Box 277
Dayton, OH 45401-0277
1-800-543-3840
1-513-667-3331 (Fax)
